TARIFF TAXATION.

What Some Prominent Republicans Have Said About It.

High tariff speakers and high tariff writers frequently take pride in calling attention to utterances of certain Democrats, and, after constructing these utterances to suit themselves, announce that these men were protectionists of the latter day strife; when in fact such tariff taxes as are now in existence were not then even dreamed of.

Prominent Republicans have also spoken on this great question, and the echoes from the voice of some of them have hardly died away. They were not discussing the law tariff taxes of the earlier periods of our country either, but the present tariff—the tax that was levied to carry on the war, and which the manufacturer, the monopolist, has succeeded in having increased and retained to the present day. Here is what some of things have been said by Republicans since agitation of this question began:

W. B. ALLISON.

March 14, 1879.—The agricultural interest, it will be seen is much the largest interest in its aggregate product as well as in the number of persons employed I believe no one will claim that this large interest is directly protected. It is true that under customs laws there is a small duty upon wheat, barley, oats, and other agricultural products, but it does not afford any protection to the great wheat and grain producing regions of the country.

What is true of wheat is equally true of other grains. Therefore the farmer has practically no protection at all, and whatever benefit he derives is from what the home market furnishes for home products. Unfortunately for the farmer the market price of wheat is fixed by the price which the surplus will bring abroad, or the price of wheat in London or Liverpool. At that market where the surplus is sold; and which fixes the value of the whole crop, he comes in competition with the grain produced in the Crimea, in Hungary, and in the region of the Baltic, from fields cultivated by what is known, in comparison with our own, is pauper labor.

But I am told we must so legislate as to furnish a home market for all our agricultural products; and this can only be done by high tariff. Any one examining the subject will see that our agricultural products increase more rapidly than our population, so that, if we do not export these products in their natural condition, we must do so by converting them into manufactured articles, and export those articles. But this cannot be done under a high tariff, for all nations will buy manufactured products where they are the cheapest, and the nation selling the cheapest will control the market.

HON. BEN BUTTERWORTH.

May 10, 1890.—I sound this note of warning; and whatever this House may decide, and although it may resound with plaudits of utterances that a Chinese wall is the security of our people, yet I assert that there never was a time in the history of the Republican party when it was in more danger of defeat than upon this one suggested idea that it is permissible to levy tribute upon all the people of this country of sixty-five millions to confer a benefit upon a few hundred.

HON. JOHN A. LOGAN.

April 18, 1870.—Now, when the gentlemen who seems to be the protector, in an especial manner, of the great labor interests of this country speaks of his protection being the protection of the labor of this coun-

try, I ask him: Does not every farmer and his machine in this broad land make use of iron in all kinds of labor? The 4,000,000 men that have been freed recently are laborers and producers, not manufacturers. They are not men of skilled labor; they evidently are not men who are protected. And then there are the men in the Northwest, who produce corn, wheat, oats, pork, and beans, etc. They are producers and consumers, and are not protected; and it is they who pay this large amount of money into the pockets of the manufacturers of this article. And when a gentleman stands upon this floor and tells me that this high, this extraordinary high, tariff is for the protection of the laboring men, I tell him I do not understand how he can possibly substantiate such a theory.

HON. JEREMIAH M. RUSK.

1890.—I had an opportunity to take some stock in the combination [National Harvest Trust] and I know what inducements were offered. An investigation will show that this same combination is now selling, or offering to sell machinery in Russia and Australia and other wheat-growing countries at a lower figure than they do in this country. This won't do, and I need not offer any argument to prove the weight or truth of the assertion.

1889.—I call his attention to the fact that there has been a very close corporation formed consisting of all the manufacturers, as I understand, some six or eight in number, in the United States, whereby the price of these articles (steel beams, etc.) has been made not only uniform, but has been largely enhanced. In the construction of the capitol building at Topeka, Kan., the contractor found that he was able to save, I think, some twenty or twenty-five thousand dollars by purchasing articles of this kind abroad and shipping them to this country; and the contractors for the State-house in Texas saved between one hundred and fifty and two hundred thousand dollars by a similar purchase. One of the contractors for the Texas State-house told me that when the question of purchasing the beams for that building was under consideration his superintendent applied to all the manufacturers of steel beams in the United States for prices and received from each one of them a reply naming the same price; and it was found impossible to get up any competition or in any way to break the price, so they were constrained to go abroad to save this very large sum of money, which they did. I have no doubt that the price of these beams is much larger than it ought to be, and that if there is no other way of breaking up this combination, it ought to be reached by a sensible reduction of the duty.

These manufacturers were not willing to enlarge their production and thereby meet the entire American demand, but preferred to manufacture a limited supply at enormously increased profits, and that, I think is a feature of the iron manufacture in this country to a very considerable extent. That is to say, those who manufacture these articles—beams—do not care to supply the entire American market, but prefer to supply only that portion of it which they can supply at an enormous profit.

HON. JOHN A. LOGAN.

Carrsville.
Work on our streets seems to be the order of the day.

Carrsville is just on the eve of a boom, that is all that is needed, is a boomer, and we are looking for him daily.

The board of trustees of the town propose to adopt a new set of by laws. We suppose they will give us good laws, plenty of protection, and will pass the force bill, as the board is composed of three Republicans and two Democrats. It appears that the Republicans will soon be in the majority in our town from the way they increase. Ten years ago there was only about three Republicans in the town and now they are pretty well divided; in fact we under their control, both in the town and public school. The voters here say they are used to nothing so, are willing to have Nunn for circuit judge.

The vote will be pretty well divided between James and Gordon for commonwealth attorney.

Farmers report the present dry weather as affecting the late potato crop, which is the largest ever planted in this section.

John Clark, known as "Elephant" Clark, was in our midst a few days ago, canvassing for the sale of a cultivator his own patent.

The board of town trustees have put a veto on saloon keepers selling intoxicants to inebriates, which may be the means of reducing the price of boot head whisky, then won't I that is, if I can just drink up sober.

Tammany Hall Declares Boldly For Cleveland.

New York, Sept. 9.—Tammany Hall came out boldly to-night for Cleveland and Stevenson. A meeting of the general committee had been called together to issue a call for the primaries of the districts.

The chairman made a brief address enjoining the Presidential and Vice Presidential candidates and the hall shook with cheers. Bourke Cockran then presented a resolution endorsing the nomination of the principles.

The resolution in conclusion says: "We do cordially pledge our untiring efforts to the election of Grover Cleveland to the presidency and of Adlai Stevenson to the vice presidency of the United States. The resolution was adopted unanimously.

DOUBLE HANGING.

The Necks of Two Murderers Snap In the Ohio Penitentiary.

Columbus, O., Sept. 8.—Charles Craig, colored; and Edward McCarthy, a brace of Cincinnati murderers, were executed in the annex of the Ohio penitentiary this morning. Each of their cases had been through all grades of the courts, were considered by the Board of Pardons and a final appeal made to the Governor. The latter refused to interfere in either case, although a strong pressure was brought to bear on him to-day.

McCarthy was a criminal from early manhood. August 23, 1890, he became involved in a quarrel with Albert Netterman, at Cincinnati, and shot and killed him. He was convicted and received at the penitentiary January 21, 1891, and sentence was suspended to give the case a chance before the higher courts and the Board of Pardons.

LIKELY TO FAIL.

Prohibitionists Cannot Get Signatures to That Million Voter Contract.

Columbus, O., Sept. 8.—

There are hardly any prospects that the Prohibition party will be successful in obtaining its one million of signatures to the agreement by which each signer pledges himself to vote for the candidates of the Prohibition party for President and Vice-President, provided the signatures of 1,000,000 voters can be secured to the agreement.

Great store has been placed in this scheme by the leaders of the Prohibition party, and at the National Convention in Cincinnati last July the opinion was freely expressed that this agreement would provide way by which the prohibition element could capture the nation, and that if 1,000,000 voters could be induced to band together at the ballot box in hostility to the legalization of drunkard making and to all parties upholding it, the crack of doom to the legalized liquor traffic would be sounded.

Whether, however, on account of the diverting of the minds of the voters by the tariff and force bill arguments, or by the incipient cholera scare, it is certain that the inflow of signed agreements during the past month or two has not only not been equal to expectations, but has not been up to the average of the early part of the year, and unless the cold-water advocacy of the ballot box has been engaged in a hot political discussion. The lie was passed and both men agreed to fight it out with pistols. The regulation distance was measured off and the ballot commenced. They fired simultaneously, both shots taking effect. The shooting was kept up until every chamber in their pistols had been discharged, when both Pearson and White sank to the earth from exhaustion. The aim of each man was true and both men will die.

MRS. HARRISON ILL.

Loon Lake House, Sept. 12.

—This morning the President advised Chairman Hackett, of the New York State Republican Committee, that owing to the condition of Mrs. Harrison's health, it would be impossible for him to make the tour contemplated through the northern and central parts of the State. This conclusion had been reluctantly reached but within the past day or two an added complication has developed in Mrs. Harrison's illness, and her condition now is such as to excite much solicitude, and to prevent the President's absence from her sick room.

Wages Abroad.

A persistent inquirer has finally induced an amateur Protection journal to publish a statement of the wages paid in various industries in England, France, Germany, Italy and Austria.

This is the only fair comparison to make—between countries of the Old World having similar conditions as to density of population, demand for labor, productiveness, cost of living and the other factors that everywhere control wages.

To compare Old World wages with those of the New World is to ignore differences which are as obvious as they are vital.

From the figures given it appears, as The World has frequently pointed out and as every intelligent workingman knows, that wages in free-trade England are from 30 to more than 100 per cent. higher than in protectionist France, Germany or Italy.

Blacksmiths, for instance, receive \$9.62 per week in England, \$4 in Germany and \$5.81 in France. There is substantially the same difference in the pay of carpenters, masons, painters, machinists, shoemakers and other trades.

Common laborers receive \$5.29 per week in England, \$3.11 in Germany and \$3.63 in France.

If the tariff makes wages high in the United States, why does it not have the same effect in Germany and the other protectionist countries of Europe?

No Protectionist has ventured to answer that question, and none will.—New York World.

NUNN IS A WINNER.

The Returns Indicate That Gor-
den Defeats James.

A List of the Delegates.

Saturday the Democrats held a
mass-meeting in each voting pre-
cincts in this judicial district. The
canvass has been a warm but ple-
asant one. In the race for Circuit
Judge, Nunn conceded Allen his
own county, and Allen made no
fight in Crittenden, but both worked
untruly in Hopkins and Living-
ton. In the attorney's contest the
fight was made pretty much on the
same line. In this contest Gordon
was the younger man and did more
active work; he went in to win if
such a thing was possible; while
James relied more upon his will
earned and deserved reputation as a
criminal lawyer, and did not do the
yeomanry work in the canvass that
his friends wished.

The status of the matter is sum-
med up as follows:

Nunn has his own county with 20
votes solid; eighteen of the nineteen
votes of Livingston county are in-
structed for him. Ten votes in Hopkins
county are instructed for him; in
addition to this, several other
Hopkins county votes are known to
be for him. Forty-five are necessary
for nomination, hence he has the
nomination and three votes to spare.
Besides a reasonably assured re-
served fund to draw from in Hopkins
county.

Allen has his own county—17
votes—and one in Livingston, Lois
practices. There are his instructed
votes.

Jones has the twenty votes in
Crittenden and Salem and Rud-
dick's shop in Livingston, five votes; and
two precincts, with three votes,
(Frondon and Donaldson) in Cald-
well, making 28 instructed votes.

He has assurances of the remainder of
the Caldwell vote, which would
increase his vote to 42, three short
of a nomination.

If Gordon has carried Hopkins
solid he has 32 to start with, and
if he has the remainder of Livingston,
14 votes, as reported, this gives
him 46 votes or one more than is
necessary to nominate.

The delegates from Crittenden to
the Princeton convention are:

Marion—All good Democrats who
may attend.

Dynsburg—S. H. Cassidy, Owen
Bouy, Judge Yeats, P. K. Cooksey,
Union—F. M. Clement.

Hurricane No. 1—T. J. Flanary,
Hurricane No. 2—Wm. Barnett,
Sid Moore, Foster Threlkeld, Dr.
Boyd and W. L. Clement.

Ford's Ferry—H. M. Cook, W. B.
Wilborn.

Bells Mines—S. O. Nunn, W. H.
Asher, W. F. Summerville.

Hurricane—Jack Stalton, Alex
Stalton, Josh Hamilton.

Ford's Ferry—W. B. Rankin, D. A.
Flanary, L. J. Daugherty.

Bells Mines—Albert Brightman,
F. M. Brightman.

Piney—J. C. Little, J. N. Towery,
J. H. Travis.

A meeting of the party was called
for Sept. 24 at Marion. The pur-
pose of this meeting is to endorse
the candidates the committee selects.

Carrsville—H. A. Hodges, Dr. Wash-
burn, David Mance.

Rodius—Marion Hurley, H. A.
Hodges, A. Pope.

Carrsville will probably have two
sets of delegates at the Princeton
convention. A correspondent writes
from that point that when the cor-
respondent assembled Saturday, a Re-
publican was present and pledged
himself to support the nominees of
the Princeton convention, if he
would be allowed to vote in the pre-
cinct meeting. A motion was made
that he be allowed to participate,
and the meeting voted two to one
for his admission, whereupon
twelve persons withdrew from the
regular meeting and held another on
the outside of the house and also ap-
pointed delegates to the Princeton
convention.

The opposition to the regular or-
ganized Democracy of Alabama will
have a convention to-day to put an
electoral ticket in the field. A dis-
patch from Birmingham says:

"The aggregation together here
next Thursday promises to be as
nearly a crew as ever gathered in
the confines of this State during the
days of the carpet-bagger."

SPEAKING.

Monday Mr. Keys opened the
tournament at this place. He began
at 10:30 o'clock and spoke until
noon. His speech was about the
same as the Third party speakers
make. He deplores the condition of
affairs, charges it to the legislation
of the past thirty years, and charged
the legislation to the Democrats, who
have not been in power during that
time. He charges corruption to
everybody, and offers himself as a
panacea for all the ills that the
human flesh is heir to. Fiat money,
the sub-treasury and land loan em-
brace the body of his speech. He
little the tariff tax.

Capt. Stone answered conclusively
every argument, and his effort was
gratifying to his Democratic hearers.
Mr. Stone is developing great pow-
ers as a debater in this canvass than
he has ever shown before.

Dr. Debo for the first time ap-
peared on the stump. The stump is
new to him, but he made a good
speech from a Republican standpoint.
He only occupied the stand about
twenty minutes, but his speech was
twenty minutes, but his speech was
to the point and forcibly delivered.
The high tariff and force bill were
warmly endorsed by him.

Mr. E. T. Franks spoke for more
than an hour, advocating and de-
fending the Republican doctrine and
legislation.

Mr. C. K. Wheeler answered Mr.
Franks. He made a magnificent
speech, covering all of the debatable
ground, bringing out all of the points.
His speech was greatly appreciated
by the Democrats.

Election Booths.

The new election law provides for
voting booths. To the uninitiated the
use of the word in this connection
does not altogether give a clear idea
of what an election booth is. Im-
agine a box six feet long, three feet
wide and three feet deep, standing
on one end; remove the lid, and hang
a curtain over the front; put a small
shelf about three feet from the
bottom, and you have the booth.
There are required for each young
place in this county, and as there are
eleven voting places, thirty-three
booths are needed. As directed by
law the sheriff has provided for these
booths. The ones to be used in the
county are of sheet iron, and they
come three together, all hinged, cur-
tained and painted. All that is
necessary is to unbox, set them up
and open them. Eleven substantial
ballot boxes were also purchased,
the total outfit for the eleven pre-
cincts cast about \$250. If half way
taken care of they will last for sev-
eral general elections.

Re-rear when the sovereign gets

Farmers should practice economy and buy the New American, as with it they can harrow rocky, stony and hard ground, cultivate corn and tobacco in either rough ground and sow all kinds of grain in all conditions of ground.

On Monday, county court day, we noticed Mr. Kellogg had his combined harrow, drill and cultivator on exhibition on the square and had the implement set up for the three different forms, making each a complete and separate implement and from the interest our farmers took in this tool and from our own observation we would judge this to be a great invention and a great improvement in farm implements, and we believe it would pay our farmers to purchase this implement while the company is located here as we understand they will remain but a few weeks.

The Merchants of Marion Have Organized and the Dead Beets Must Go.

On Aug. 26 a number of our merchants met in the parlors of the Hotel Hillyard and organized the Crittenden County Branch of the Merchants Retail Commercial Agency, of Chicago, electing the following gentlemen its officers: J. P. Pierce, president; J. W. Skelton, vice president; Geo. M. Crider, secretary and treasurer; Sam Gugenheim, S. D. Hodge, E. H. Mayes, J. N. Woods and R. C. Walker, executive board.

This agency uses no illegal methods to force payment of indebtedness; nor does it in any way regulate prices. Its sole object is to eliminate from the credit business, that objectionable drone upon society and business, the non debt payer, known as the dead beat, and to force a man to deal honorably with the merchant or pay spot cash for goods purchased.

The merchants propose to exercise their legal right to refuse credit to persons who gain the reputation of treating a member of this agency dishonorably. Every honest, debt paying person in this county is interested in the success of this agency.

Every dollar lost by the merchant by reason of dead beats is shifted onto the shoulders of the honest paying classes and any system that has a tendency to drive that element from the business of the merchant puts him in condition to extend better accommodations to those who do pay—thus relieving them of a percentage of burden they have borne in the past.

Many a poor, worthy man has been refused credit because of the merchants' experience with dead beats, and your honest people ought to yourselves to assist the merchants in this war they have inaugurated against that element which draws and has been drawing upon society for so long. It is the do nothing, pay nothing class this agency is after, and unless they are pretty sharp, they will be caught.

NO FORCE BILL

Intelligent Negroes do not expect Benefit from such Legislation.

Orlando, Fla., Sept. 11.—At the solicitation of the Courier-Journal correspondent, the following statement has been prepared by John T. Shuften, an educated colored lawyer of this city, defining his position on the Force bill and his reasons therefor:

"There is not an honest, intelligent and patriotic colored man in the South, who has the interest and welfare of his race at heart, and sincerely desires its permanent prosperity in the Southern States, who can conscientiously indorse any such legislation as the measure known as the Force bill. While, no doubt, there are many who would desire more wholesome election laws and better management at the polls and in voting precincts, yet they are not willing to hazard the peace, safety and material prosperity of seven millions of dependent people, by indorsing a policy which would have a direct tendency to create disorder in every Southern community, and at the same time paralyze and indefinitely suspend every branch of industry by which the colored population is supported and maintained.

"The passage of the Force bill would place the negro population in a very serious position in the South. They would have all the odds against them in the great contest that would necessarily follow the operation of such a measure, and, unless the negro played his part wisely, with an eye single to his own true interests, he would lose all and be irretrievably ruined in the end.

"No Force bill, under the present circumstances, can place the race in that exalted position in the Government which it craves; it must reach that goal by or through some other process, if it is to be attained at all.

"No Congressional interference can better the political condition of affairs in these States: for, if the negro, through a lack of sufficient intelligence and of an influential moral courage, has demonstrated to the country that he is as yet incapable of exercising the right of suffrage (unless it is dropped up with bayonets and superintendent by a military dictator), it is indeed better that he withdraw from acting the political farce and await with patience such a time as he, or his children, shall be sufficiently qualified to discharge this high trust with honor and credit to themselves without any unnecessary interference by political tricksters or scheming politicians.

"The greatest obstacle to the elevation, progress and usefulness of the negro race is the alluring and seductive influence of politics. It is their evil genius—the Pandora's box from which all the contention and strife between the two races have ever emanated; it has been the overshadowing cloud which has threatened and menaced the peace and good order of this section for the past twenty-five years; and it will continue to harass and disturb the peace of every Southern community until the Republican party ceases to fondle and hotbug the negro, and leaves him free to turn his attention from the ideal and delusive notions of political greatness, to that of acquiring a more perfect education, and to engage himself in those industrial pursuits of life which alone can make him independent and respected.

"If such men as the Hon. Fred Douglass and his thousands of admirers were to do half as much to look

the race here in the South as they have spent in looking after its fancied political interest, there would be no cause for the present sorrow and grief of the President over the wretched political condition of the Southern negro.

John T. Shuften."

JUPITER'S FIFTH SATELLITE.

Lick Observatory's First Important Discovery Considered a Great Distinction For America.

Chicago, Sept. 12.—Prof. Barnard has earned a niche for himself beside Galileo, Herschel and other men of that kind, and the permanency of his fame is as secure as it can be." S. W. Burroughs, the well-known astronomer who recently resigned from the staff at the Lick Observatory to accept the position of Clerk of the United States Court in this city made the remark to-day, and showed the following telegram:

Mount Hamilton Observatory, Sept. 11.—E. B. Barnard sends greetings to S. W. Burroughs with fifth satellite to Jupiter, of the thirteenth magnitude; period 17 hours and 36 minutes, distance from center, 113,400 miles.

"The discovery of this satellite, which was made by Barnard Saturday," continued Mr. Burroughs, "is the greatest astronomical achievement of the century, and will cause the world of science to ring. It simply means the addition of another body to the solar system, which is, in these days, a most stupendous discovery.

It is far greater than the finding of the satellites of Mars for these two bodies were more or less easily of observation.

Barnard's work makes an addition to the solar family in a field that was well worn out

and which was thought to have

been so thoroughly sifted that

astronomers gave up the task

of looking for fresh facts. Then

too, Jupiter has been the most

observed of all the planets, for

the reason that it is so very

large and such a grand body

with which it invites inspection.

I can tell you that will be grand news for the astronomers of Europe."

ANOTHER AMERICAN TRIUMPH.

Lieut. Peary Reached the Highest Point Attained on the East Greenland Coast.

Washington, Sept. 12.—The Stars and Stripes have been planted at two points nearest the pole yet reached by civilized man. The Navy Department to-day received the following telegram from Lieut. Peary at St. John's N. F.:

"United States Navy claims highest discoveries in Greenland, East Coast, Independence Bay, 82 degrees north latitude 34 degrees west longitude, discovered July 4, 1892. Greenland's ice cap ends south of Victoria inlet."

The highest point heretofore attained on the East Coast is about 75 or 77 degrees, and was made by Holdeby, a German. The highest point on the west coast was 83, made by Lockwood and Brainerd, of the Greeley expedition. Naval officers are delighted at the success of Lieut. Peary and his telegram was received with much pleasure.

Death Warrant Signed.

Frankfort, Ky., Sept. 12.—The fate of Oscar Jones, of Bath county, has been sealed, and he will be hanged November 4. The court of appeals has refused to reverse the decision of the lower court, and has refused to give the case a rehearing, and to-day the Governor signed the death warrant.

The crime for which Jones is to suffer the death penalty was the killing of Taylor Vice, the most pleasant to take of all forever and ever. Remained

ANNOUNCEMENTS.

We are authorized to announce T. J. Nunn, a candidate for Judge of the Circuit Court of the district composed of the counties of Livingston, Crittenden, Caldwell and Hopkins counties, subject to the action of the Democratic party.

We are authorized to announce J. P. Gordon, of Hopkins county, a candidate for Commonwealth Attorney of the Fourth Judicial District, subject to the action of the Democratic party.

We are authorized to announce L. H. James a candidate for Commonwealth's Attorney of the Fourth Judicial District, composed of the counties of Livingston, Crittenden, Caldwell and Hopkins, subject to the action of the Democratic party.

FOR SHERIFF,

We are authorized to announce JOHN T. FRANKS a candidate for Sheriff of Crittenden county, subject to the action of the Republican party. He will appreciate your vote and influence.

TO THE VOTERS OF CRITTENDEN COUNTY: Having served you for the past two years as Sheriff, I take this method of expressing to you my gratitude for the confidence imposed in me. It has been the custom of the county to endorse all past Sheriffs who have asked it of the people, and feeling that my treatment of the people has been such as to merit an endorsement at your hands, I announce myself as a candidate for re-election.

I feel that my experience will enable me to serve you better in the future than in the past, and if chosen by the people, will endeavor to do so. Yours truly, A. L. CRUCE.

To the Voters of Crittenden County: I hereby announce myself as a candidate for re-election to the office of Circuit Court Clerk subject to the action of the Republican party. I wish to return to the people of this county my heart felt thanks for the support given in the past. Whatever may be my lot in the future one of the brightest spots in my life will be the memory of what the people of Crittenden county have done for me. I have endeavored to regulate my official conduct as to be worthy of the confidence reposed in me and the honor conferred upon me. My official life is before you. If I have discharged the duties of the office with a conscientious regard for the interest of the people, without partiality to any party or shade of political belief but treating all men exactly alike and if I have performed the work of the office properly and right I respectfully ask an endorsement at your hands. For the next term if elected, I can promise nothing more than what I have earnestly endeavored to do in the past to faithfully and impartially discharge every duty incumbent upon the office with profound gratitude for your support.

Very Respectfully, H. A. Hayes.

To the VOTERS OF CRITTENDEN COUNTY: I respectfully announce myself a candidate for the office of Circuit Court Clerk, subject to the action of the Democratic party. I have for twenty-four years stood with the rank and file of the party, and with them borne the heat and burden of the day, in doing so, I simply expressed my conviction of the policy of the two great parties of the country. While I am a democrat I have always cheerfully recognized the right of my neighbor to entertain and express different opinions. In this office its occupant can in no way make or influence the laws of State or Nation and I maintain it should be filled regardless of political prejudice and without pandering to partisanship, the people should with reference to the position and standing of the man and over with a zealous regard for his qualifications to discharge the duties of the office, select and elect a good man and not a partisan.

My business training has lead me for numbers of years in a channel which taught and instructed me in the duties of this office, and without presumption or egotism I tell that I am qualified for the discharge of its duties, and can promise if elected to make a faithful and competent clerk.

To my many friends of all parties if you can agree with me in the sentiments I have here expressed I ask your suffrage and if it should be my good fortune to be your choice you will ever have my heartfelt gratitude; and I assure you I shall recognize and appreciate my position if elected, as that of a public servant and from no official act of mine will any man know my party.

Very Respectfully, J. R. Finley.
